Anri Tsetskhlashvili

Full-Stack Developer

ABOUT ME

I am a passionate and results-driven Full Stack Developer with a strong foundation in modern web technologies and a keen eye for intuitive design. My focus is on building scalable, maintainable, and innovative web applications that bridge frontend interactivity with robust backend systems. I strive to deliver complete solutions that are not only visually engaging but also technically sound, secure, and aligned with business goals.

EXPERIENCE

Frontend Developer - Kan-Guroo

September 2025 - Present

Developed dynamic web applications with React, Next.js, and TypeScript. Translated Figma designs into pixel-perfect UIs, implemented animations with Framer Motion, and integrated multilingual support using i18next.

Full Stack Developer - Delivo

Jan 2025 - present

Managed the full development lifecycle for web applications enhancing logistics and business automation. Designed and maintained scalable systems, developed RESTful APIs, and optimized the overall platform architecture.

Frontend Developer & 1C Support Specialist - Delivo

Aug 2024 - Jan 2025

Automated and streamlined business processes using the 1C platform. Enhanced package delivery and logistics systems by improving frontend workflows and ensuring effective integration with backend services.

Frontend Developer - Unilab

Apr 2024 - Nov 2024

Built and maintained high-performance web applications using React.js. Collaborated closely with UX/UI designers and backend teams to integrate APIs and create dynamic, user-friendly interfaces.

Frontend Developer - AlgoUni

Sep 2023 - Sep 2024

Gained foundational frontend skills through hands-on projects using React, HTML, CSS, and JavaScript. Focused on responsive design, building reusable components, and understanding web development best practices.
