- Node.js
- Express.js
- Python
- SQL
- PostgreSQL
- MongoDB
- Firebase

TOOLS, TESTING & DEVOPS

- Vite
- Git
- Docker
- CI/CD
- VITEST
- QA Manual

PROFILE

I am a results-driven Full-Stack Developer with a solid foundation in modern web technologies and a keen eye for detail. My primary focus is on writing clean, scalable, and testable code to ensure system stability and high performance. I have hands-on experience in automating business processes and developing platforms with complex architectures. I am dedicated to building products that are technically sound, secure, and perfectly aligned with strategic business goals.

WORK EXPERIENCE

Front-End Developer

September 2025 - Present

Kan-Guroo

- Developing dynamic, high-performance web applications using React.js, Next.js, and TypeScript; transforming Figma designs into Pixel-Perfect, responsive interfaces to ensure premium UI/UX.
- Implementing complex animations via Framer Motion, managing multi-language support with i18next, and utilizing Agile/Scrum methodologies and ClickUp for team efficiency.

Full Stack Developer

Jan 2025 - Present

Delivo

- Managing the full development lifecycle of business automation applications; developed two scalable applications using React and React Native
- Designing and maintaining scalable systems, creating RESTful APIs with Node.js and Express, and managing PostgreSQL and MongoDB databases.
- Using Vitest for testing to ensure code quality and optimizing data structures to enhance overall platform architecture.

Frontend Developer & 1C Support Specialist

Aug 2024 - Jan 2025

Delivo

Automated and optimized business processes using the 1C platform ; improved parcel delivery and logistics systems by refining front-end workflows and ensuring effective integration with back-end services.

Frontend Developer

Apr 2024 - Nov 2024

Unilab

PROJECT MANAGEMENT

Attention to Detail

Creativity

LANGUAGES

- Georgian - Native
- English - B2
- Russian - A2
- Latin - A2
- French - A1

Built and maintained high-performance web applications using React.js. Collaborated closely with UX/UI designers and backend teams to integrate APIs and create dynamic, user-friendly interfaces.

Frontend Developer

Sep 2023 - Sep 2024

AlgoUni

Gained foundational frontend skills through hands-on projects using React, HTML, CSS, and JavaScript. Focused on responsive design, building reusable components, and understanding web development best practices.

EDUCATION

Master of Computer Science

September 2025 - Present

Georgian Technical University

Front-End Acceleration Program

April 2024 - November 2024

Unilab

Front-End Developer Program

September 2023 - Sep 2024

AlgoUni

Medical Doctor

September 2018 - February 2024

Tbilisi State Medical University
